

Laboratory 5

龚开宸

`gongkch2024@shanghaitech.edu.cn`

What happens after I type `make demo`:

lab4/makefile: run target which depends on

- `init`
- `matrix`

compile `compile.py` build: `./tools/verilator/build.sh -b -v -GISSUE_NUM -b: build=true -v:`
set verilator flags `build_proj()` sim test
